- We have only conducted a meeting with the RRC and Payam Administrator in his office where we have received secondary information about the existence of returnees in Mapel being resettled in their origin damaged houses from where they had been displaced by violence;
- We visited the returnees together with RRC and Payam Administrator and we were able to meet about 250 individuals composing 100 households. More returnees were said to have gone to look for some wild food for their livelihoods.
- We were not able to reach their shelters for direct physical observation of the needs. We have therefore recommended to collect more evidence during a future verification visit.

## RECOMMENDATIONS

*If emergency shelter and/or NFI distribution is recommended:*

<b>Define targeting criteria</b> <i>-need/vulnerability (if vulnerability, define vulnerability categories)</i>	More information will be shared after the verification.
<b>Specify items to be distributed</b> <i>-Number and type per household - NFI/ES, full kits, loose items -Specify if quantity of items distributed will vary by household size</i>	More information will be shared after the verification.
<b>Key considerations for distribution</b> <i>-Eg access, logistics, security and protection concerns, push/pull, stakeholders/partners to work with</i>	N/A

*If emergency shelter and/or NFI distribution is **not** recommended:*

<b>Summarize reasons and propose next steps, if any</b> <i>-eg referral to other clusters</i>	Verification exercise is recommended.
