

**NFI and Emergency Shelter
DISTRIBUTION REPORT/Shelter Construction**

Report Date: 10 th of June 2017	Shelter construction Date(s): 19 th of May 2017 to 26 th of May 2017
Pipeline Request Reference <i>(if the distributed items comes from pipeline)</i>	WAU – IOM – WAU – R - 0712

Distribution Location Information	
State*	Western Bahr El Ghazal
County*	Wau
Payam*	Wau North
Exact location/Boma*	POCAA, Cathedral Church, Loko Loko
GPS Coordinates	
Site/settlement Type*	PoCAA <input checked="" type="checkbox"/> Collective Centres <input checked="" type="checkbox"/> Others (specify) _____ <input type="checkbox"/>
Displacement Type*	Conflict affected <input checked="" type="checkbox"/> Disaster affected <input type="checkbox"/> Other (Specify) _____ <input type="checkbox"/>

Distribution Team Details			
Name	Agency	Title	Contact (email, mobile, sat-phone)
Fatur Surur	IOM	S-NFI Field Assistant.	fsurur@iom.int
Naima Tahir	IOM	S-NFI Operations Officer	ntahir@iom.int
Agnes Duku	IOM	S-NFI Field Assistant.	aduku@iom.int

Beneficiary Numbers: Breakdown by Population and Support Type
(please provide ONLY actual data collected from the distribution list, not estimations)

NON-FOOD ITEMS (NFI)									
Population Type*:	New IDPs <input type="checkbox"/> __%, Protracted IDPs <input type="checkbox"/> __%, Returnees <input type="checkbox"/> _____%, Host Communities <input type="checkbox"/> _____%, Others (specify) _____ <input type="checkbox"/> _____%								
HOUSEHOLDS	INDIVIDUALS								
TOTAL	TOTAL		0 – 18 years		19 – 59 years		60 + years		Vulnerability (total)
	M	F	M	F	M	F	M	F	

EMERGENCY SHELTER									
Population Type*:	New IDPs <input type="checkbox"/> __%, Protracted IDPs <input checked="" type="checkbox"/> 100%, Returnees <input type="checkbox"/> _____%, Host Communities <input type="checkbox"/> _____% Others (specify) _____ <input type="checkbox"/> _____%								
HOUSEHOLDS	INDIVIDUALS								
TOTAL	TOTAL		0 – 18 years		19 – 59 years		60 + years		Vulnerability (total)
	M	F	M	F	M	F	M	F	
1,020									

Beneficiary Numbers: Breakdown by Location

If the distribution took place in multiple locations and/or the beneficiaries had multiple places of origin, please complete this table indicating the number of beneficiaries per location and/or place of origin.

Payam	Boma	Households	Individuals	
Wau	PoC (69 communal shelters)	828	Total	5,900
			Male	
			Female	
Wau	Cathedral (25 communal shelters)	160	Total	
			Male	
			Female	
Wau	Loko Loko (4 communal shelters)	32	Total	
			Male	
			Female	

Stock Distributed

Procuring organization and warehouse from which stock was sourced	IOM, from Wau Warehouse			
Quantity of materials used in the shelter construction.	Items	Quantity requested in the PLR	Quantity from the ECS dismantle shelters	Unit
	Plastic Sheets	290	33	Pcs
	Rubber Ropes	49	0	Bundle
	Bamboos	0	31	Bundle
	Nails 1 inch (not from PL)	80	0	Kg
	Nails 2 ½ inch (not from PL)	70	0	Kg

Type of Item	Brand/Manufacturer	Style/Version #	Size	Colour	Other
Plastic sheet	Pipeline Standard		4*6	White	
Bamboo	Locally procured		3m	Brown	
Rubber Rope	Locally Procured			Black	

Summary of Distribution

- Where was the distribution held and how was it organised?
- What and how were beneficiaries informed?
- How was equal access ensured for men, women, girls and boys?
- How was order maintained during the distribution?

IOM Shelter/NFI team conducted a rehabilitation and shelter enforcement in the PoC and the collective centres (Loko Loko and the Cathedral church) prior to the rainy season. These shelters were constructed on October and November last year 2016. The team conducted a shelter rapid need assessment and identified the required materials to rehabilitate and enforce the communal shelters in the PoC and other collective centres. Furthermore, the communal shelters are hosting protracted IDPs who fled the last year crises and seek protection and safety in the PoC and collective centres.

The shelter rehabilitation was conducted in a close coordination with the camp management in the PoC (managed by IOM) and collective centres (managed by ACTED), church authority and community leaders, who informed the beneficiaries on the rehabilitation activity.

Casual labours were hired and introduced to the required rehabilitation and supervised by the team.

There were some specific shelters which required replacement for the whole plastic sheeting and reinforcement of the structure with bamboos, nails and rubber ropes; while others that need only some plastic sheets to support the roof or the sides.

In order to optimize the materials requested from the cluster. The team reused the salvaged materials from the ECS church communal shelters (when people relocated to Almansaa on the 5th of May 2017, the 10 shelters that was constructed in the site were dismantled and the materials were reused in the rehabilitation of the communal shelters in the PoC and the collective centres).

What actors were involved in the decision-making regarding the distribution process?

-Explain what role the following people had in the process: local authorities, partners, humanitarian officers, volunteers, beneficiaries, etc.

The shelter/NFI team coordinated with the camp management in the PoC and the collective centres to ensure a proper coordination with church authority, community leaders and beneficiaries regarding the shelters rehabilitation and reinforcement. Beneficiaries were informed and collaborated with the casual labours during the activity and supported in moving their belongings.

The team mobilized the casual labours in the PoC and the collective centres and provide the required materials and work closely with them to ensure that the communal shelters are rehabilitated sufficiently. Addition to that, the team requested the camp management in the collective centres and the PoC to keep informed the Shelter/NFI team on the community feedback regarding the rehabilitation and needs of new reparations.

Furthermore, the shelter/NFI team attended the community meeting in the PoC to present and discuss the shelter rehabilitation with the community leaders, to raise the awareness in using the communal shelters among the beneficiaries. It was reported that most of damages in the plastic sheeting and the structure was due to the fire wood and bamboos that put on the top of the shelters. These behaviours required to be changed and beneficiaries need to be aware that taking care of these shelters are their responsibility. Community leaders welcomed the suggestions and hold themselves accountable to inform the beneficiaries.

Changes from assessment recommendations

-If there were any changes to the original plan, please explain what changes occurred and why they were necessary.

There was no change in the assessment recommendations. The number of communal shelters rehabilitated were 98 shelters in the PoC and the collective centers.

Targeting criteria

-Who finally received and why? Did the group to be targeted change in any way between the initial assessment and those who received on distribution day?

The target group for the shelter rehabilitation were the protracted IDPs, accommodated in communal shelters which required rehabilitation, based on the assessment. This hasn't changed since the initial assessment.

Challenges and lessons learned

-Did you face any major challenges, and/or learn any useful lessons?

The communal shelters in the PoC were affected by people's misuse to put fire wood and bamboos on the shelter's roof. This issue has been discussed during a meeting with community leaders, in order to be communicated to the IDPs.

Recommended next steps

-Should any further action be taken in the area by the Shelter and NFI Cluster, or other actors?

Camp management in coordination with the community leaders should ensure that IDPs are being accountable to the communal shelters and avoid to put heavy material on the top of the shelters. Shelter team will continue to raise the awareness and discuss with the community leaders, in order to pass the message to the people who live in the communal shelters.

Anecdotes, Stories, Photos

-Please share any interesting or illustrative stories of people's experiences, responses, and needs; and photos

Communal shelter in the PoC
