

In 2021, the cluster identified about 2 million South Sudanese in need of the Emergency Shelter and Non-Food Items (ES-NFI) assistance. Out of this 2 million South Sudanese, the Cluster has targeted about 1.1 million of the most vulnerable to receive ES-NFI assistance, through in-kind distribution, cash/voucher Assistance (CVA), and/or integrated settlement programming. This includes the newly displaced population, protracted displacements, returnees, and host communities affected by conflict, sub-national violence, and flooding.

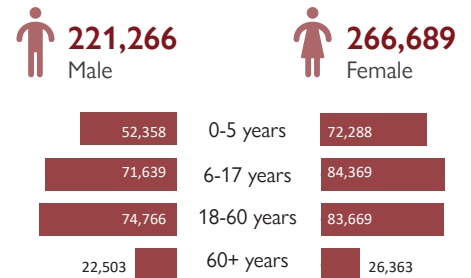

As of June 2021, the cluster has responded to the needs of 487,955 most vulnerable individuals with shelter and NFI assistance, representing 45% of the target under the 2021 HRP. In the month of June, the response was focused on providing S-NFI assistance to populations affected by conflict and recent sub-national violence in Bor South, Pibor, Tonj East, Tonj North, Tonj South, Uror, and Wau County
